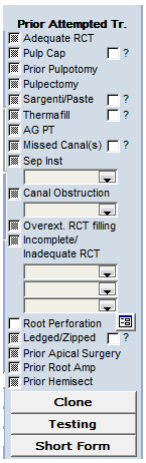
Prior Treatment Analysis Report

262 TDO KB February 23, 2026 New User resources, Reporting Tools 7.80K

Overview

The report data comes from the **Diagnosis** page, where you stated that the patient was seen previously by another doctor.

Detailed Instructions



Adequate
RCT
AGPT
Incomplete
RCT
Ledged
Missed
Canals
Overext RCT
Root Perf
Sargenti
Sep Inst
Therma Fill

To open the report, click **Reports** on the top menu bar – **Visual Analysis of TDO Data – Prior Treatment Analysis**

The report will open and show you how many cases were considered by general dentists and endodontists. It will break down each type of case. You may use the filter options at the top to limit your results to a certain subset.
