# Major iCA Update Announcement Effective July 1, 2019

757 TDO KB September 2, 2025 Insurance, TDO software 8.64K

# Overview

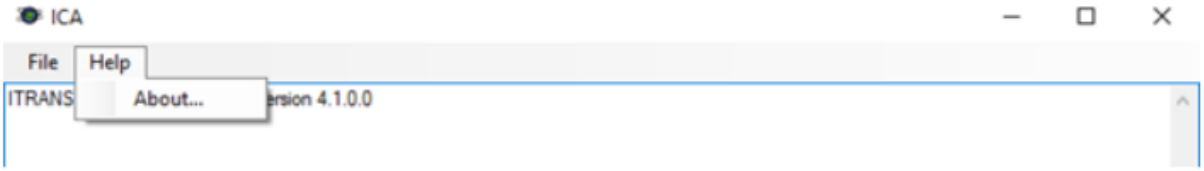
ITRANS has announced a major update for their iCA application. Effective July 1, 2019, you will need to use iCA version 3 or newer (the most recent version, however, is 4.1.0.0). Please see their release here [External Link].

---

### How to check the version of your ITRANS ICA software

From the computer that's used to send CDAnet e-claims, look for the ITRANS ICA icon running on the taskbar next to the time display (as shown below). Double click on the ICA icon.

The ICA window will appear, click "Help" and then click "About"



A new window will appear displaying the ICA version you are using.
