Using Marea AI (formerly Alara) Reports with TDO

1021 TDOKB2 January 26, 2026 Compatibility + Integrations, TDO services 5.45K

Marea Features

- **Smart Report Generator:** Generate referral-ready reports in seconds using AI that understands dental terminology and *your* practice style
- **Voice Transcription:** Convert spoken notes into structured documentation with context-aware dental terminology recognition
- **Custom Templates:** Create and customize report templates that match your practice branding and workflow preferences
- **HIPPA Compliance:** Enterprise-grade security ensures all patient data and reports meet structured healthcare compliance standards

---

Requirements to Integrate with TDO:

- Minimum Version 12.416d - **Recommended Version 12.482d**
- Cloud Services are required, and OpenVPN must be connected

Contact TDO Support to activate Alara AI today!
