

Recall Autofill Setup

195 [TDO KB](#) October 30, 2023 [Program Setup](#) 5.14K

Overview

As in many other places in the program, there are autofills available to make data entry easier. On the Recall page in the patient's record there are three autofill buttons. The values that these buttons fill in are set up on the **Recall Autofill Options** page.

Detailed Instructions

To open this page, select **Program Setup** from the top menu bar then select **Recall** and then **Autofill Options**.

To move between the three records use the record selectors at the bottom of the form.
