Print all Unprinted Insurance Claims

244 TDO KB February 26, 2026 Insurance Tools 5.94K

Overview

Sometimes insurance claims are created and are not printed out. To help this situation, TDO has a batch printing option.

Detailed Instructions

Menu bar. **Insurance tools>Print All Unprinted Insurance Claims**. By selecting this option, all claims created but not printed (or not sent to eclaims) will be printed at once.

If there are no claims to be printed, you will receive a message telling you that there are no unprinted claims.
