Printing a Patient's Record

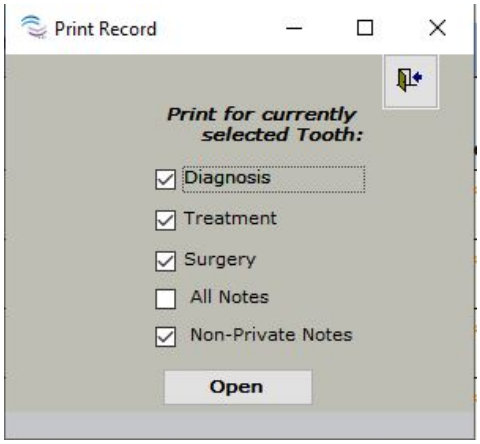

247 TDO KB February 25, 2026 Front Desk Tools 10.49K

Overview

The patient's diagnosis, treatment, surgery, and note pages may be easily printed all from one place. This is convenient when you need to print a copy of a patient's record.

Detailed Instructions

Click **Front Desk Menu – Print Record** to open the print menu.

At this point, you can select which items you wish to print and click the **Open** button.

You can include images by going to the Letters Module and using **Pick Pictures.**
