How to install TDO Lectures in your database

27 TDO KB October 30, 2023 Setup 6.59K

In order to install TDO Lectures in your database you must login to TDO website, download the Setup Lectures and install it on your database. **You must run the Setup Lectures from a computer that has TDO installed.** The Lectures will be installed to the database your TDO is connected to.

1. Go to https://www.tdo4endo.com and login using your credentials

2. Go to Download section, and under lectures download the Lectures202.zip file into TDO builds folder on mapped network drive

3. Extract the Lectures202.zip contents

4. Execute the SetupLectures202.exe from the folder you just extracted

5. After the program complete the lectures installation, all the lecture categories and images will be available next time you open your TDO and go to Lectures on Image Organizer.
