

Enable "Remember Me" for Referring Doctors on your website

281 [TDO KB](#) December 3, 2025 [Cloud Ribbon Menu](#), [New User resources](#), [Troubleshooting](#) 8.64K

Overview

This option allows the referring doctors' computer to save their username and password.

Detailed Instructions

- Log in to the **Web Wizard** area of your website. If you have forgotten your login information, it is the same username and password that you use to login to www.TDO4Endo.com
- Go to **Website Settings**
- **Referring Doctor Login**
- Click **Enable 'Remember Me'** and select the amount of time the website should remember the user. See the image below:

Patient Referral Options

These options affect the Patient Referral page. Hiding optional fields like the patient's address in a collapsed menu. The referring doctor will be able to fill these fields out if they wish to do so. You will still allow the referring doctor to add information for the patient's insurance provider.

☒ Hide optional fields by default.

☒ Allow referring doctors to enter insurance information.

☐ Allow referring doctors to request a CBCT scan for patients.
