

Troubleshooting - Language DLL msain.dll error

308 [TDO KB](#) October 24, 2023 [Troubleshooting](#) 23.08K

Overview

If when opening TDO, you are receive an error that Access failed to start in Safe mode and it is followed by a Language DLL error, follow the steps below to resolve.

If the steps below do not resolve your issue, please contact TDO Technical support at **(858)558-3696**

Errors:

Steps to Resolve

1. Click **OK** to close error screens
2. Open **Control Panel**
3. Click **Program and Features**

Adjust your computer's settings

4. Find the **Access Runtime 2002 (or 2010)** and Right click and select **Repair**

It may prompt a Windows installer screen, if this is the case in the area Use Source, please change the ending path from \ACCESS~1\ to \Backup

5. After the Repair has completed, Run **TDO Autofix**. [How to Run a TDO Autofix](#)

6. This should resolve the issue but if this does not, please contact support as there will be additional steps to troubleshoot.
