

Checking the Online Lexicomp Database

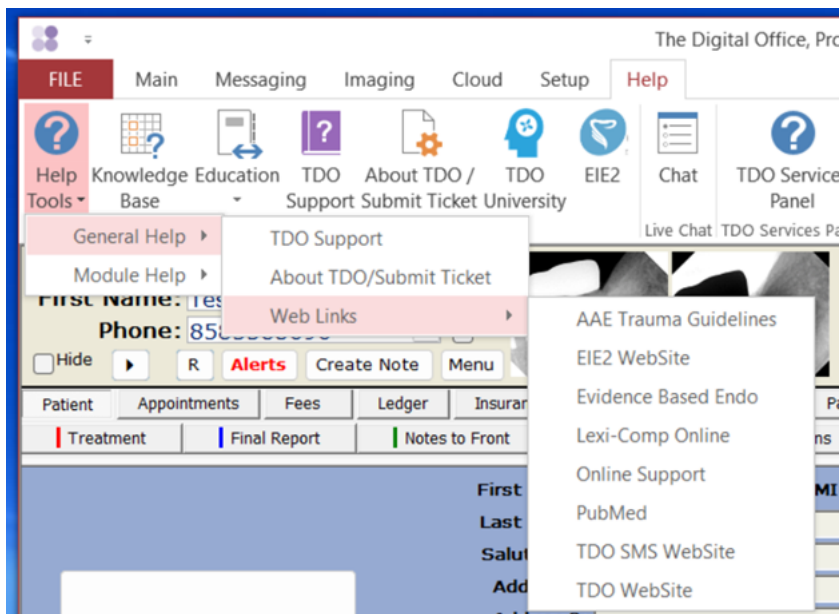

314 [TDO KB](#) February 24, 2026 [Help Ribbon Menu](#), [New User resources](#) 25.53K

Overview

As a TDO User, you have the ability to check Lexicomp Drugs Database real-time online. This can be accomplished in several ways: from directly within the program, from the TDO4Endo.com website, or from the TDO Mobile app (if you are using this service).

Access From Within TDO

Select **Help>Help Tools>General Help>Web Links>Lexi Comp Online**.

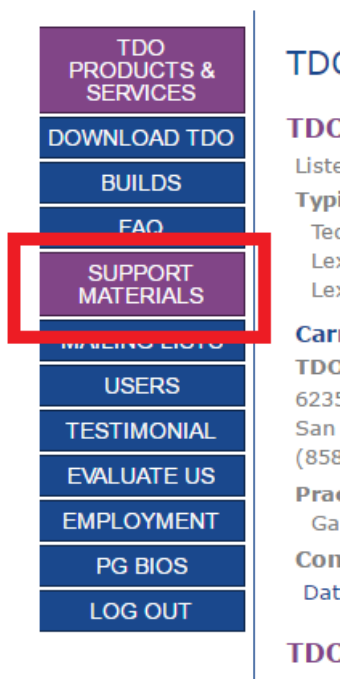

Going to this website will give you the most up-to-date drug information/details/interactions. TDO does have Lexicomp within the program as provided by the **SetupDrugs** file, but checking the website will provide you with the most recently updated information.

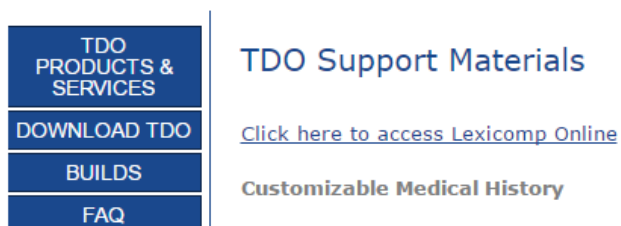

Access from TDO4Endo.com

To access the Lexicomp Drugs database from the [TDO4Endo.com](#) website, you must first navigate to the site and login.

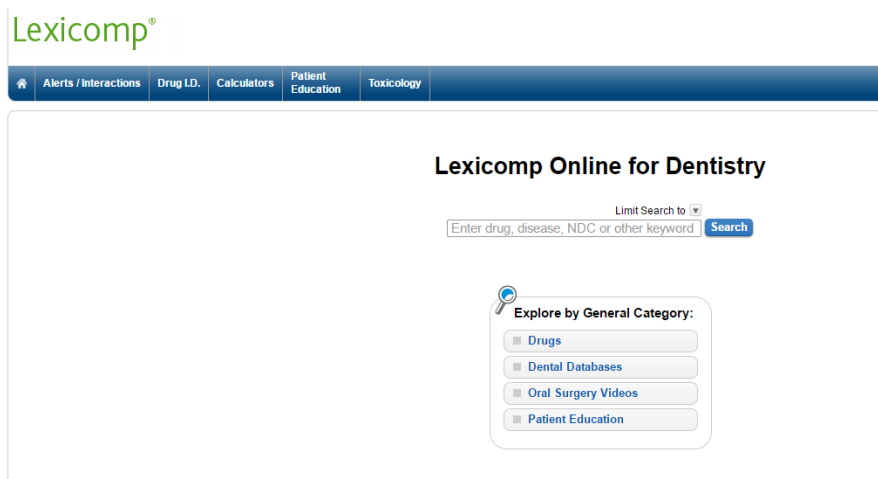

Once logged in to the site, click the **Support Materials** button.

Then, select the **Click here to access Lexicomp Online** link.

This will take you to the online Lexicomp Drugs Database.

Access from TDO Mobile

TDO Mobile is an iOS/Android app and is an additional service that your office might be using. If you are not using TDO Mobile and would like more information, please [click here](#).

In order to access the Lexicomp Drugs Database in the TDO Mobile app, you only need to click the Menu button in the top left corner and then select the Drugs option. From there, you will be able to search the database with ease.
