TDO Cloud Services Features

- [Patient Login Portal](#) - Patients can complete their registration forms from home. Cloud also allows patients to confirm their upcoming appointment, which will automatically update their confirmation status in TDO.
- [Referring Doctor Login Portal](#) - Referring doctors can view reports, patient information, images, and letters emailed/printed to them. Referring doctors can also refer patients directly into TDO.
- **Admin Doctor Login Portal** - Doctors and staff can view the schedule, call list, patient information, referring doctor information, reports, and add notes. Doctors with e-prescriptions can also prescribe remotely through the portal.
- **Web-based Infograbber** - The web-based Infograbber allows patient forms to be completed on any tablet (iPad, Android, etc.). Otherwise, the software-based Infograbber must be installed on a Windows tablet.
- **Cloud Backup** - Includes daily TDO database backups from the last 7 days as well as a full cloud backup of TDO X-Rays, reports, and uploaded images/documents. CBCTs are excluded.
- **Email Accounts** - 5 email accounts hosted by Google Workspace. (5 emails per paid Cloud Services location).
- [TDO Cloud Reports](#) - TDO Cloud Reports offers many more report options to choose from.
- [TDO Cloud Letters](#) - TDO Cloud Letters is our web-based text editor used to generate reports and letters. Cloud Letters conveniently replaces the need for Microsoft Word.
- **Website ([Standard Template](#))** - A standard template website is a great option for startup practices or doctors who prefer to keep things simple. A login portal to edit the website is included. [Custom, premier template websites](#) are available to purchase. Alternatively, third-party websites can be used. We do not host third-party websites. To connect our login pages with your third-party website, we will give you links to your login pages.

Contact [TDO Support](#) to sign up for TDO Cloud Services.

Pricing information can be found on the [TDO Services Pricing Calculator](#).
