How to Post an Employment Opportunity

641 TDO KB October 12, 2023 TDO software 5.34K

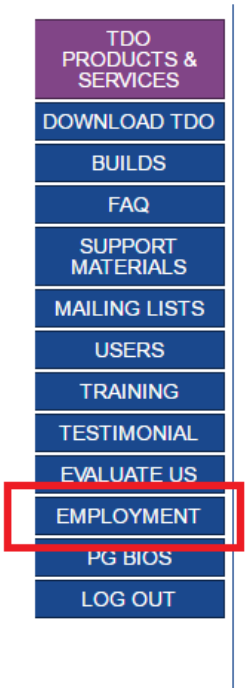

Overview

Being part of the TDO Community allows you to post job opportunities to a large amount of highly trained doctors and staff. To take advantage of this, follow the detailed steps listed below.

Detailed Instructions

1. Log into the TDO4Endo.com website with your username and password. If you do not remember your username and password, it would have been e-mailed to you after you purchased the software. If you cannot find your login information, feel free to contact TDO Technical Support.

2. Once logged in, look at the left hand menu and select the **Employment** button.

3. Once on the **Employment** page, select the **Post** option.

4. Once this is selected, you can fill in the details of the position.

When a postgrad or new doctor purchases TDO Software, this is often the first place we advise to check for potential opportunities.

In addition to this, posting employment opportunities to **TDO Chat** and TDO Staff Chat often yields good results and suggestions.
