Online system to check Controlled-Substances

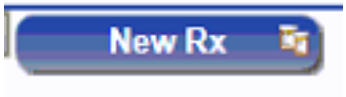

656 TDO KB November 18, 2025 Electronic Prescribing (eRX) 5.10K

Overview

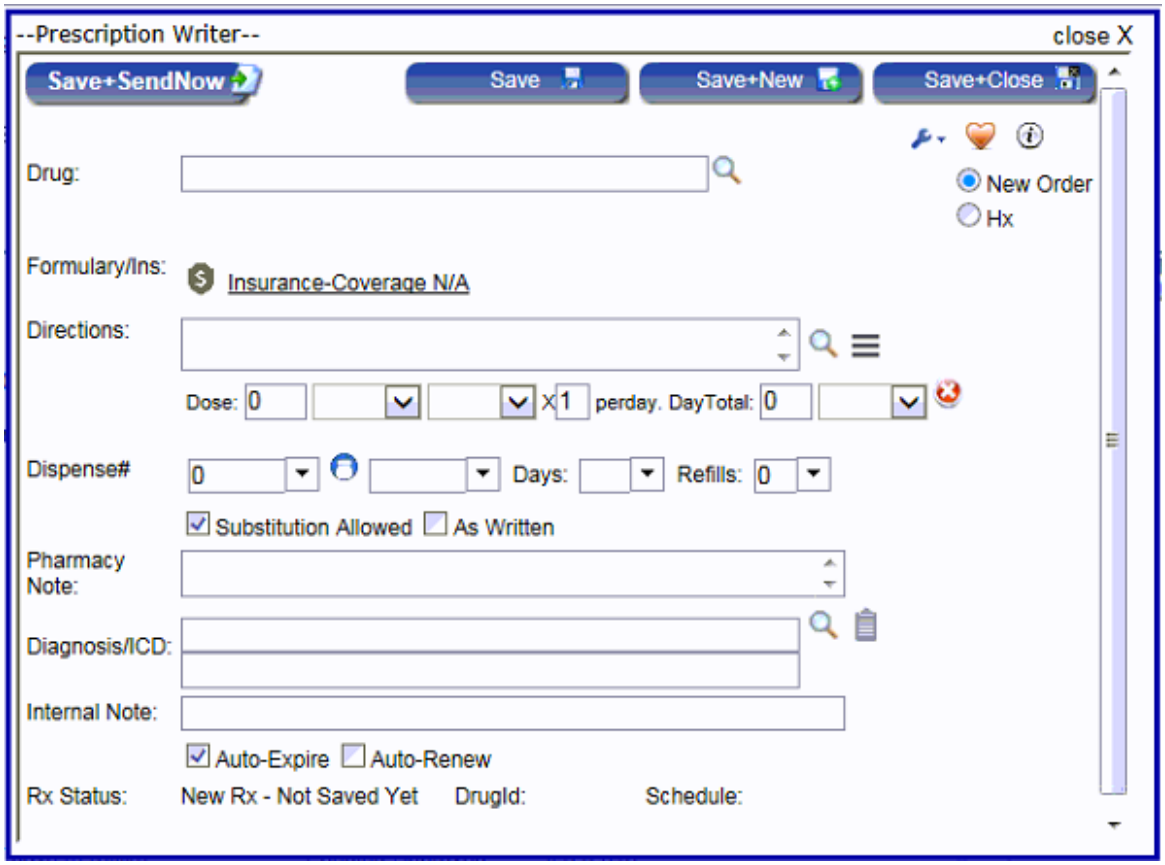

In the eRx module, users can access the State Narcotic Database system to check Controlled-Substance medications.

Detailed Instructions

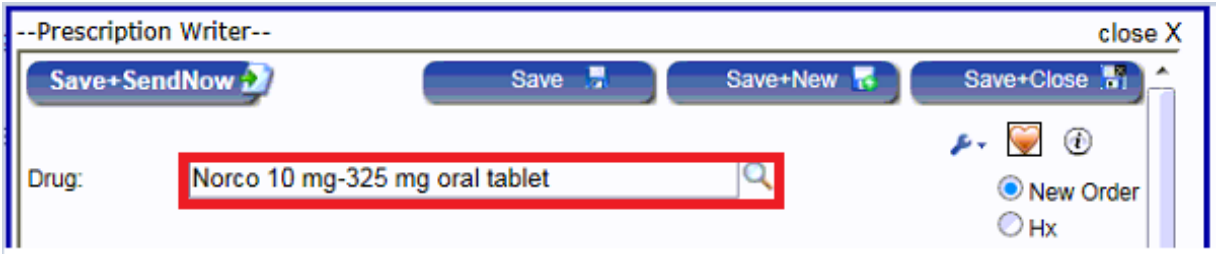

1. Click on “**New Rx**” button

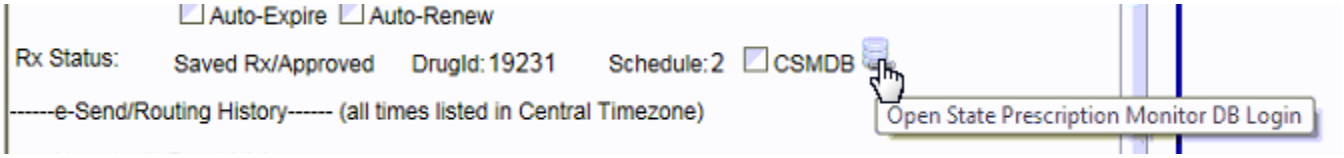

2. The "**Prescription Writer**” window will open

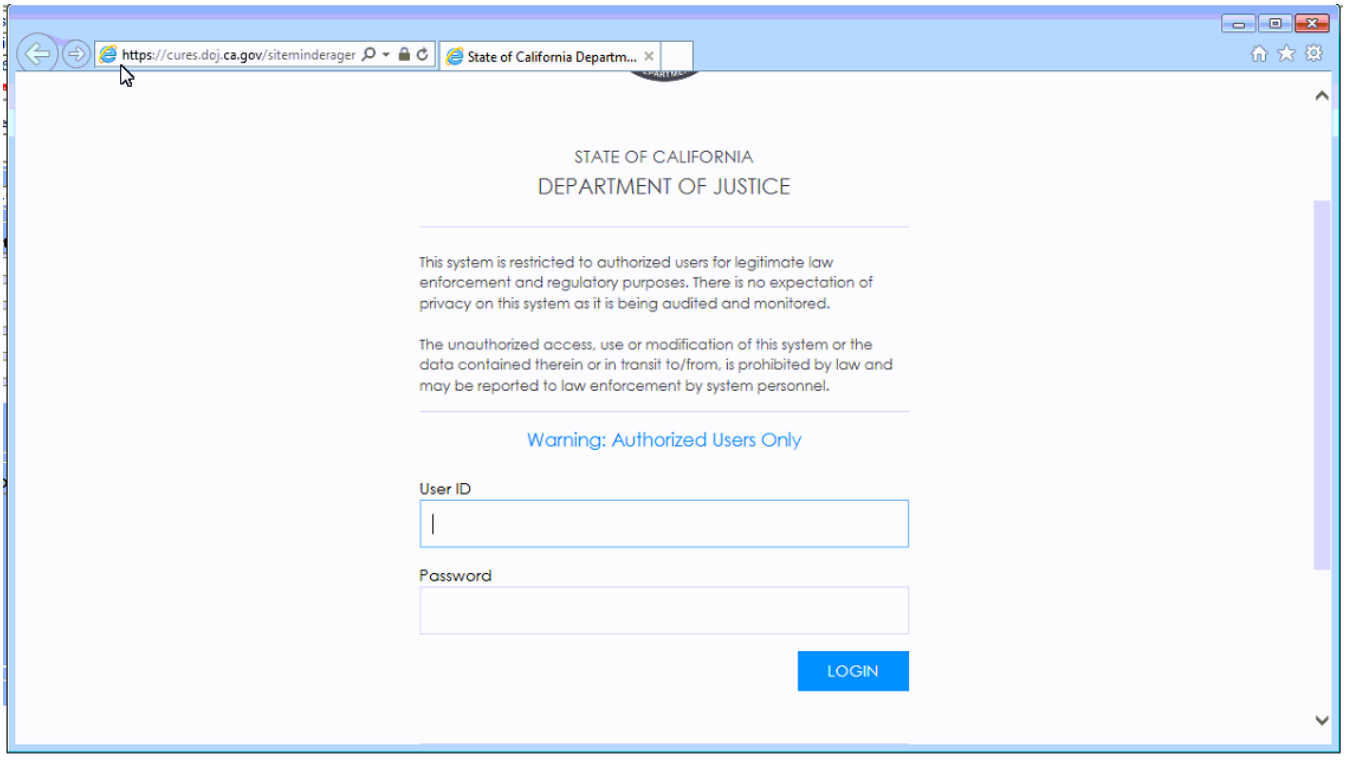

3. Add the Controlled-Substance Medication in the “**Drug**” field

4. Scroll down until you see the "**Open State Prescription Monitor DB Login**"

5. Once the "**Open State Prescription Monitor DB Login**" button is clicked, the website from the State your office is located will open.
