

Web Infograbber Auto Complete Settings

670 [TDO KB](#) October 12, 2023 [Cloud Ribbon Menu](#) 6.15K

Overview

It is important that you run a test using your web infograbber to make sure that text boxes are not showing auto complete options. There have been some instances where the tablet browser has ignored the page settings and displayed previous answers as options to fill the fields.

Detailed Instructions (with External Links)

If you find that the tablet is showing auto complete options, see the list below to disable auto complete according to the browser you are using:

Safari - <https://www.howtogeek.com/287884/how-to-disable-and-edit-safari%E2%80%99s-autofill-on-macos-and-ios/>

Chrome - <https://www.wikihow.tech/Turn-Off-Autocomplete-on-Chrome>

On-screen keyboards can also cause auto-fill issues, so be sure any predictive text features are also disabled:

Samsung keyboard:

settings > general management > on screen keyboard > samsung keyboard > smart typing > turn off predictive text
