

“Copy File Path” Feature in Organizer

695 [TDO KB](#) February 26, 2026 [Organizer](#), [Organizer](#) 6.90K

Overview

This feature will be a quick way to attach images to an email message or add image attachments using the direct file path.

This feature is available in **TDO Version 12.241a** and higher.

Note: You can use this feature to copy the filepath of image files (.jpg, .png) as well as Word documents (.doc, .docx), PDF files, and videos

Detailed Instructions

Open **Organizer** in TDO, then right-click on one image at a time and select “**Copy File Path.**”

Go to your Gmail or any other email account, click on **Compose** or **New Message**. (This may vary depending on the email provider used)

Click on the **Attachment** or **Attach File** button.

On **File Name** field right-click and then select **Paste** (or do CTRL+V) to paste the path in.

Click on **Open**.

The image you previously selected in the Organizer will now be attached to this email message.
