

eRx: How to Prepare Your Prescription Autofills

696 [TDO KB](#) November 18, 2025 [Electronic Prescribing \(eRx\)](#) 6.36K

Overview

This article will guide you through printing your list of TDO autofills in preparation for enabling eRx.

Detailed Instructions

Prior to signing up for eRx:

When you sign up for eRx, the prescription options from within TDO are no longer able to be used, for this reason, prior to setting up eRx if you have any existing prescription autofills those should be printed first so that you can add them to the prescription autofills within eRx.

When you sign up for eRx, the prescription options within TDO are no longer available. Before setting up eRx, if you have any existing prescription autofills, those should be printed first.

Version 11:

Program Setup > Prescription Autofill Options.

Version 12

Setup > Program Setup > Prescription Autofill Options.

Prescriptions Autofill Options
