# Accessing the Medical History Summary

77 TDO KB February 24, 2026 New User resources 6.15K

# Detailed Instructions

1. On a patient who has completed their Medical History, click the **Medical History Summary** tab.
2. A summary of the patient's medical history will include the patient's prescription history.
3. Review the information and enter any **Doctor Notes** necessary on this page.
4. If you wish to open the complete medical history, click the **Med History** button at the top of the page.
5. You may review summaries from all previous medical histories entered. Select the appropriate date from the **Medical History Date** combo box.
