Adding a New Menu Link to Your Website Header

801 TDO KB November 14, 2023 Cloud Ribbon Menu 13.04K

Overview

This article goes over how to add a new menu link to your practice website.

Detailed Instructions

Accessing the Web Wizard

To make changes to your TDO Website, you may access the Web Wizard to add content to your new website yourself by typing in the search bar of your web browser:

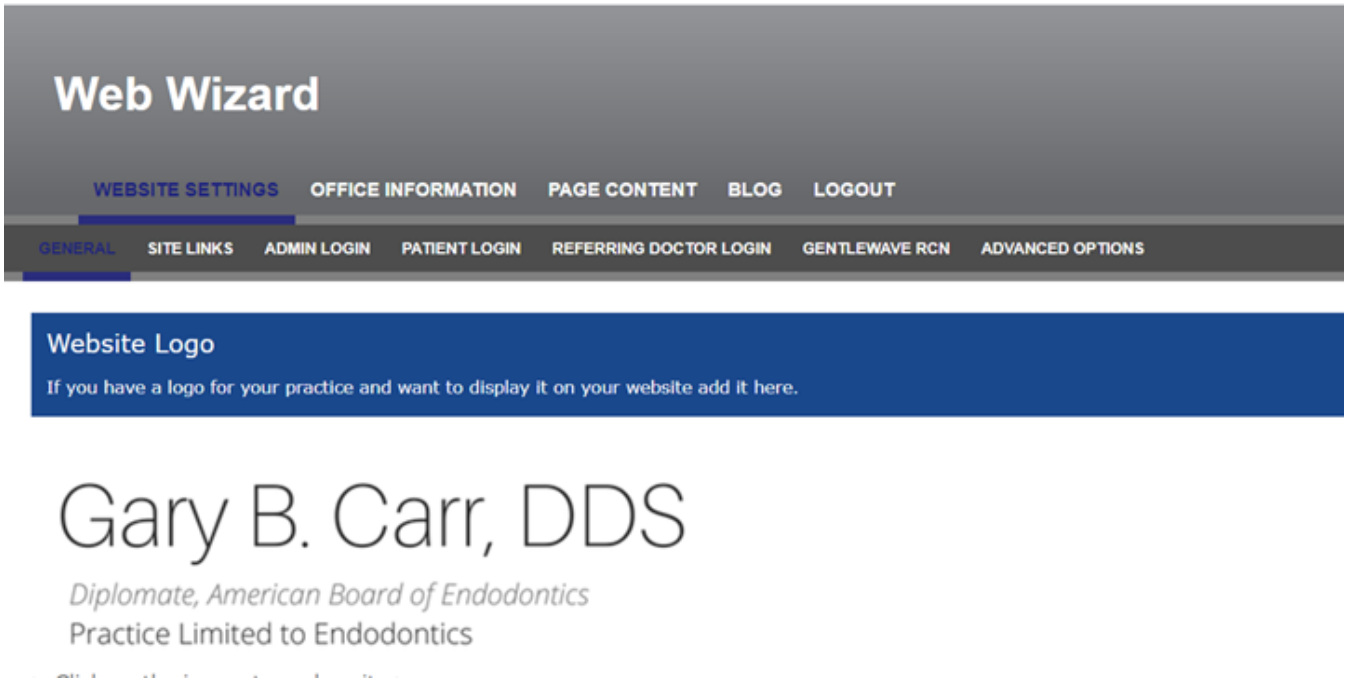

yourwebsite address/wizard

e.g www.garycarrdds.com/wizard

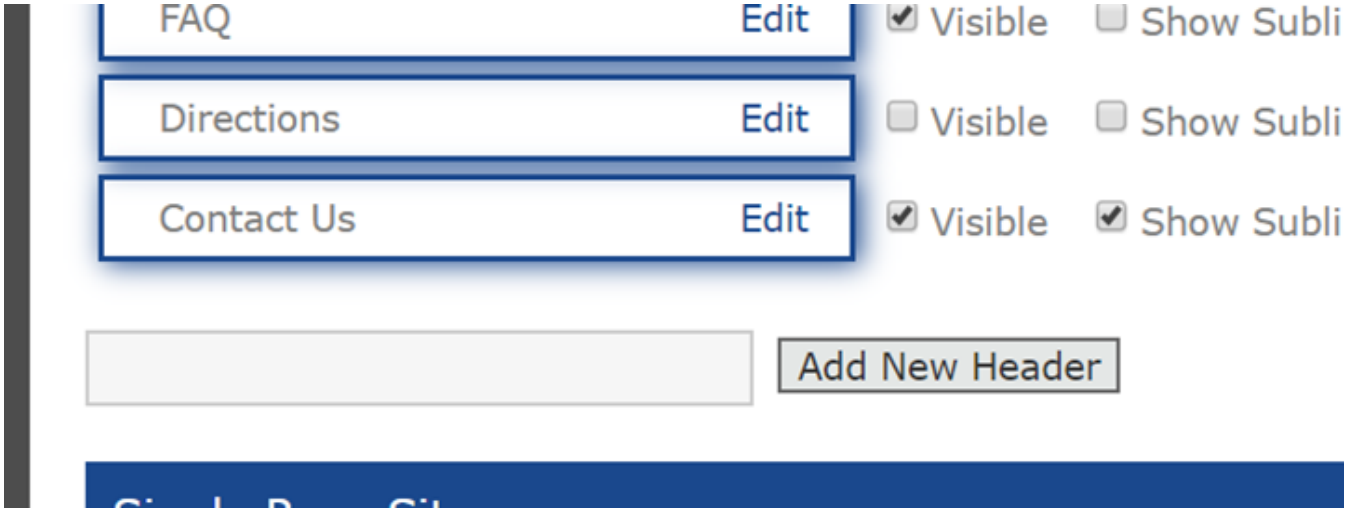

You can find your username and password for the Web Wizard in TDO under **Setup - Site Configuration - Edit Doctor Information - Web ID/ Web Pwd**.

Note: The instructions in this article do not apply if your office is using a Wordpress website. For assistance in adding anew menu item to your Wordpress website, please reach out to the TDO Cloud team at clouddesign@tdo4endo.com

Adding a new header link

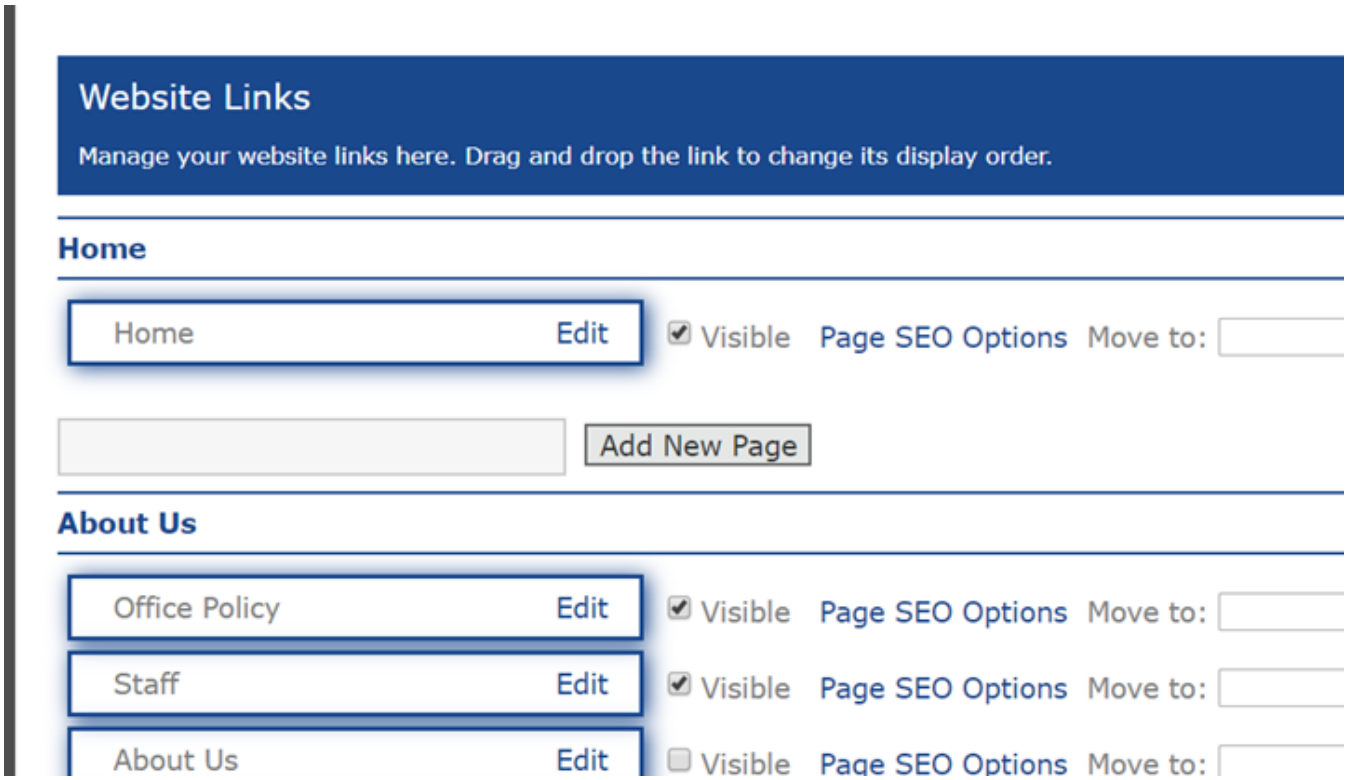

Click on **Site Links – Add New Header**- Type in your new header text and mark as **Visible**.

Adding a sub menu to a new header menu

Scroll down to **Website Links –** Find the Main Header menu you would like to add a sub menu to **–** Go to **Add New Page** - Add text and mark as **Visible**.
