eRx (MDToolbox) - Reprint a Prescription

896 TDOKB1 November 18, 2025 Electronic Prescribing (eRX) 15.85K

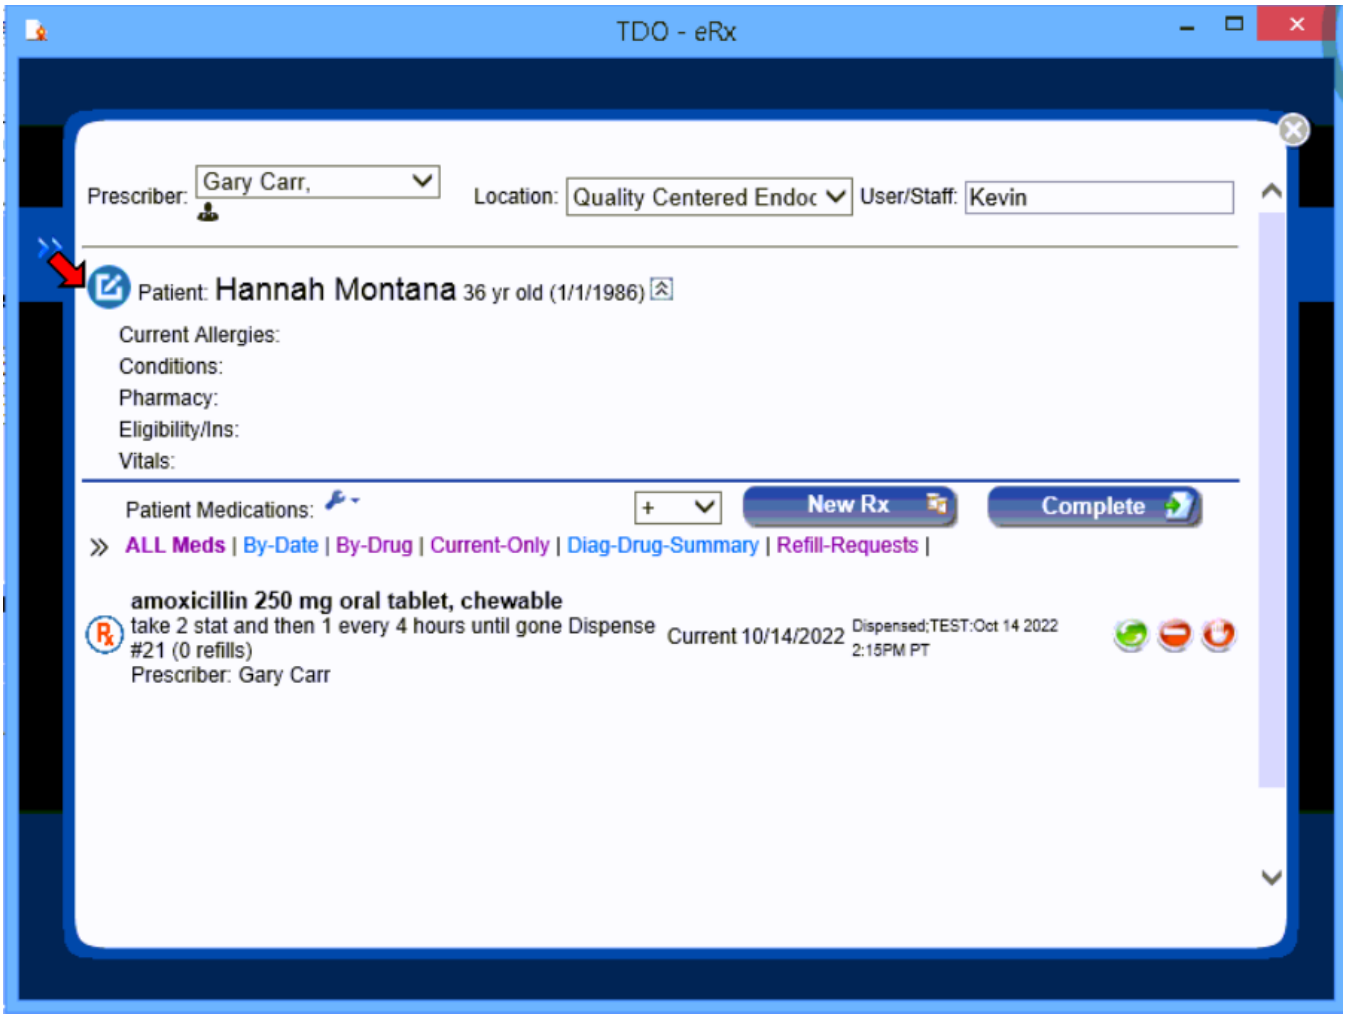

Overview

MdToolbox allows you to reprint historical prescriptions through its module.

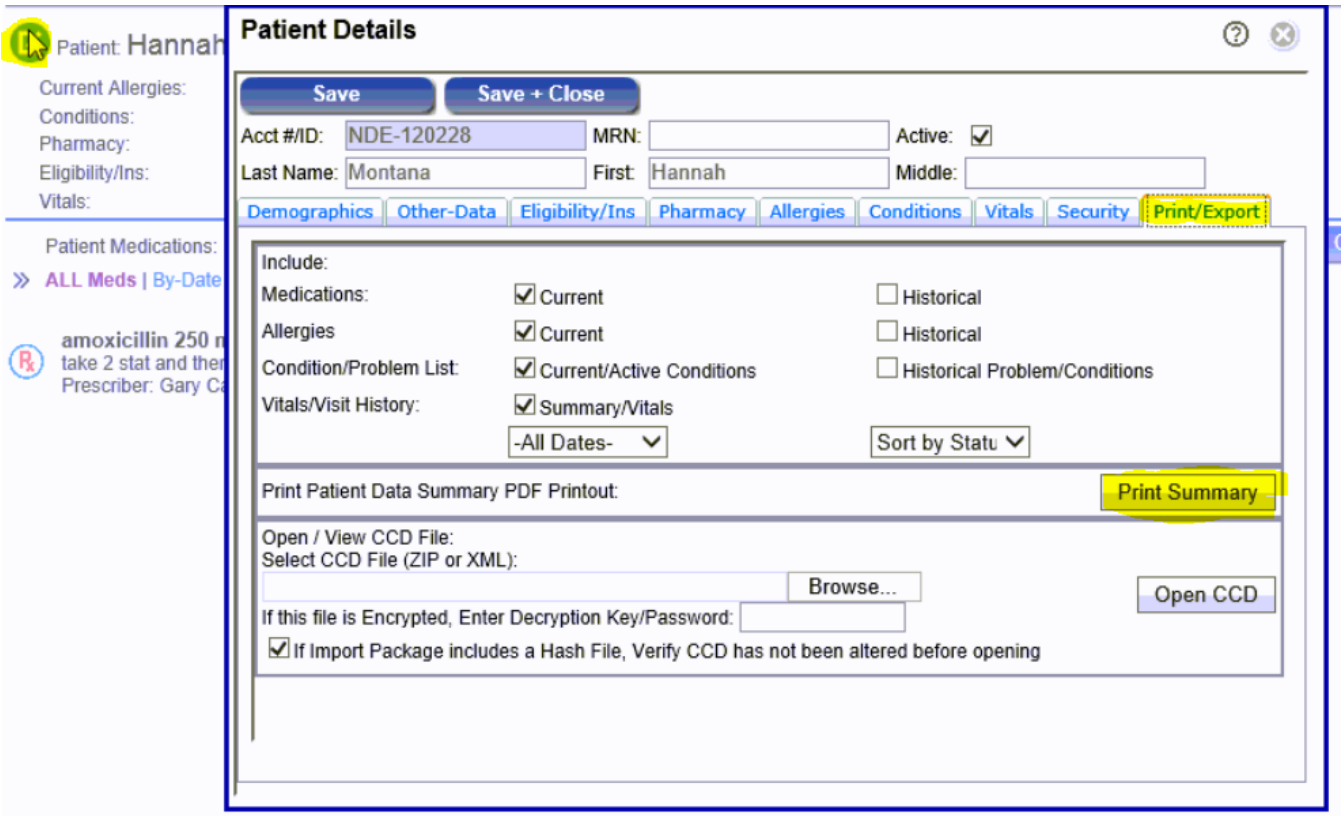

Detailed Instructions

Open the eRx Module on the desired patient.

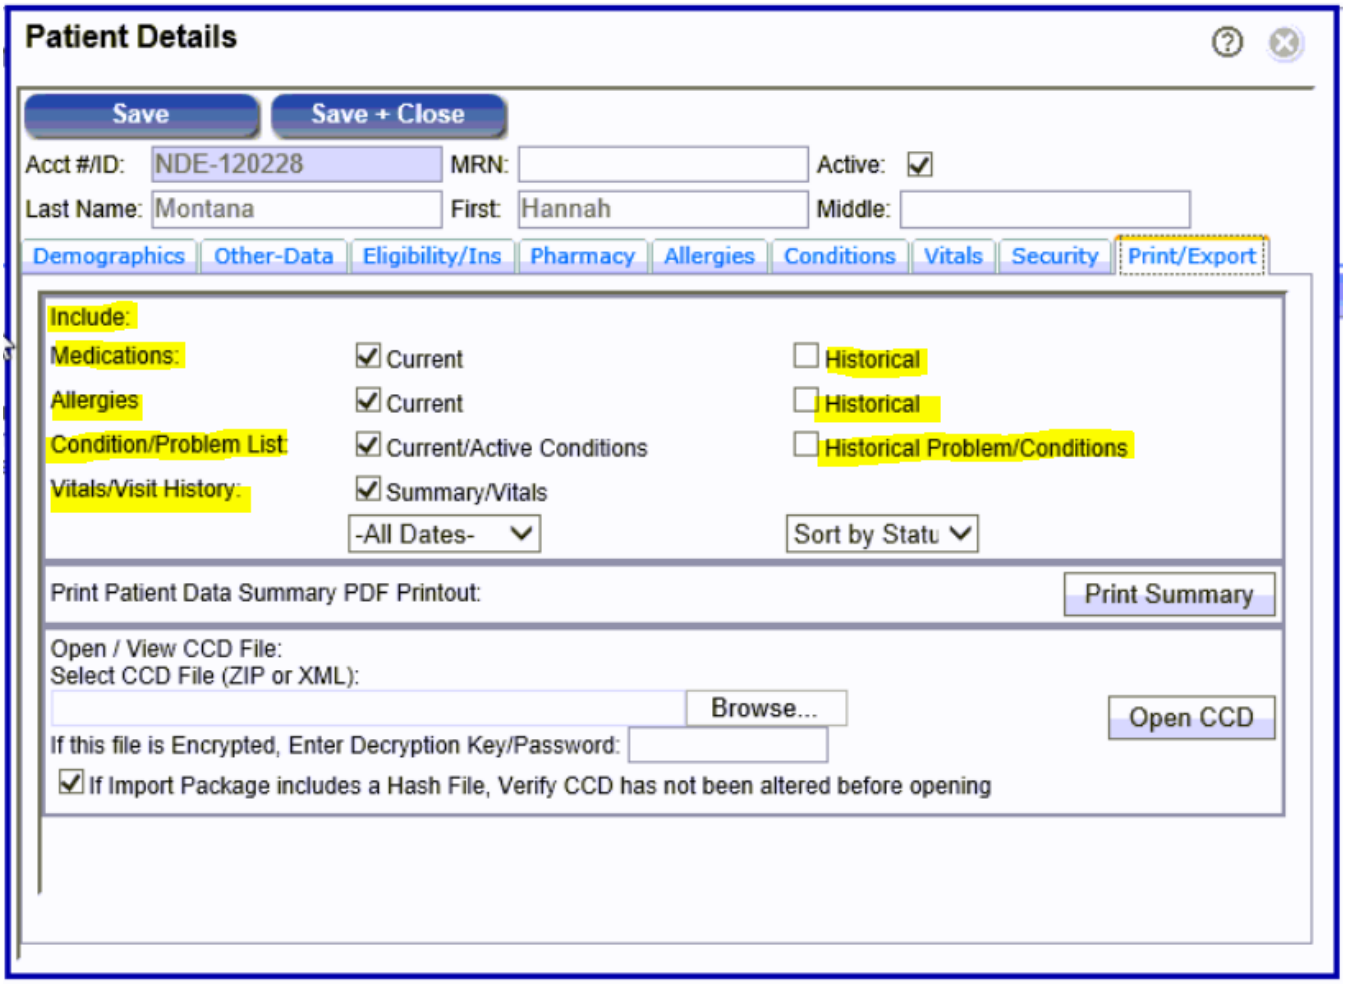

Select the icon 

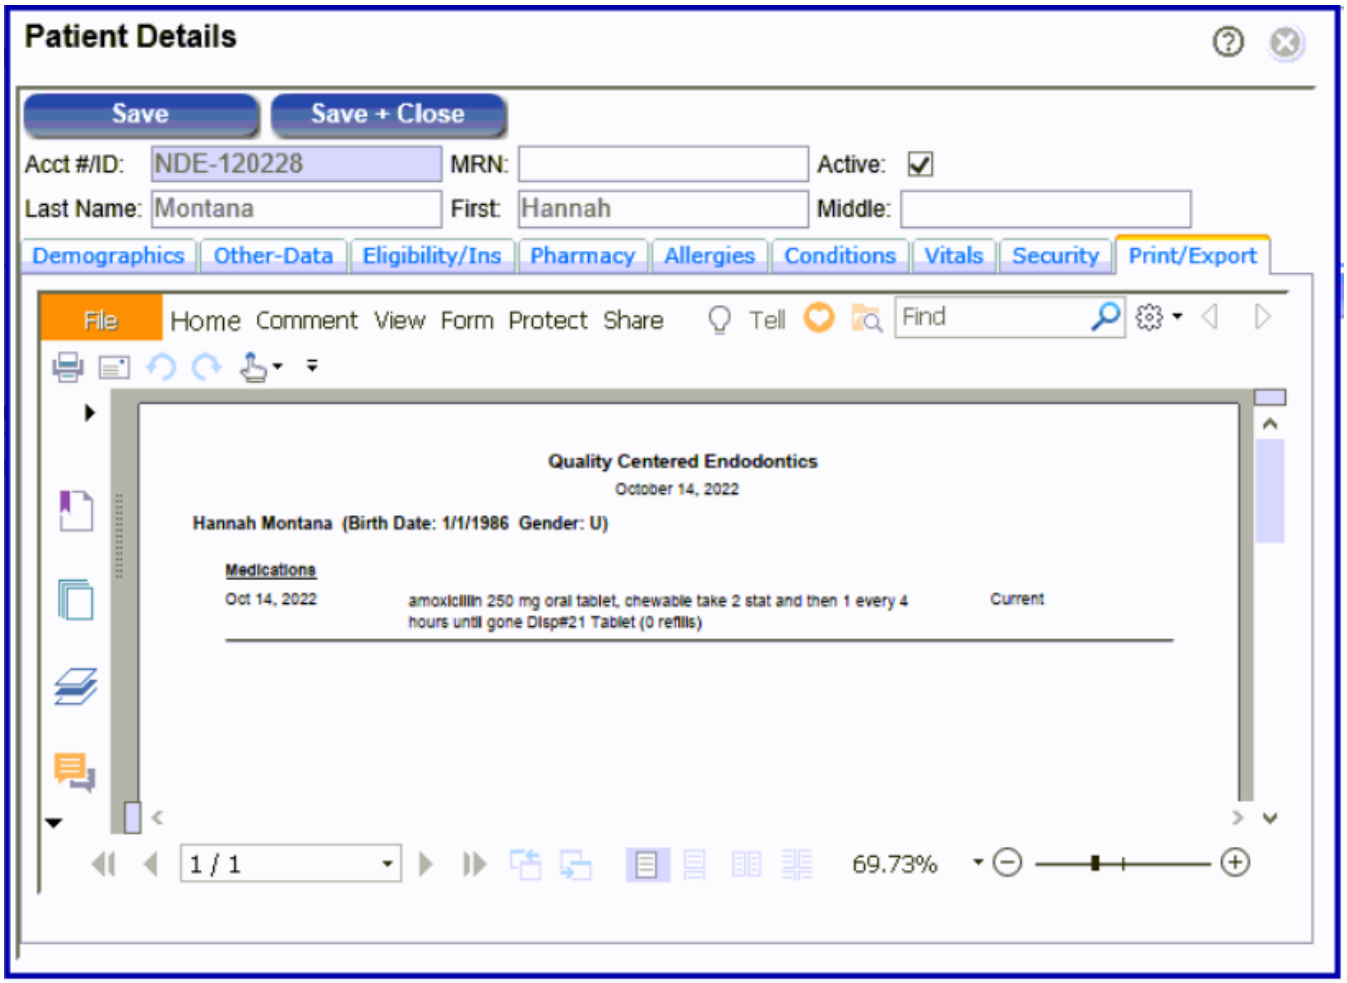

Then select Print/Export.

Select options to be displayed on the summary.

Click print summary

You can print from this menu as needed to show a patient what has been sent out without recreating a new RX in the module.
