

## **eRx: How to Prepare Your Prescription Autofills**

Article Number: 696 | Rating: Unrated | Last Updated: Jul 13, 2018 at 4:35 PM

**Overview** This article will show you how to print your list of TDO autofills in preparation for enabling eRx.

**Detailed Instructions** Prior to signing up for eRx: When you sign up for eRx, the prescription options from within TDO are no longer able to be used, for this reason, prior to setting up eRx if you have any existing prescription autofills those should be printed first so that you can add them to the prescription autofills within eRx. When you sign up for eRx, the prescription options from within TDO are no longer able to be used, for this reason, prior to setting up eRx if you have any existing prescription autofills those should be printed first. **Version 11: Program Setup > Prescription Autofill Options. Version 12 Setup > Program Setup > Prescription Autofill Options.**

When this screen pops up, press **CTRL + P** on your keyboard and the print dialogue box will pop up, from there you can print your entire list of prescription autofills. Once eRx is installed, the prescription autofills can then be entered into eRx.
